Interest and Payment	
Earns Interest	Yes - This product has a variable interest rate. See the NB AZ Deposit Products Rate Sheet for details. ⁴ Interest compounds daily and will be credited to your account monthly . If you close your account before interest is credited, you will not receive accrued interest. Interest begins to accrue no later than the business day we receive credit for the deposit of checks. See your Deposit Account Agreement for more information on how interest accrues.

- Daily Account Balance is measured by the amount of funds held in this account at the end of each day.
- Transaction:** A transaction is a combination of debited items (withdrawals), credited items (deposits), and deposited items per statement cycle, and includes the following: **Credits**—any deposit into the account; **Debits**—any withdrawal such as check, draft, ACH or other debit against the account; **Deposited items**—each individual item that comprises a deposit such as a check or other item deposited.
- Please refer to the Deposit Account Agreement to learn more about the bank's overdraft practices and services.
- Variable interest rate:** Your interest rate and annual percentage yield (APY) may change at our discretion at any time without notice. The APY assumes that interest paid remains in the account. A withdrawal will reduce earnings. We use the daily balance method to calculate the interest on your account. This method applies a daily periodic rate to the collected balance in your account each day. See your Deposit Account Agreement for more information on how interest is calculated using the "daily balance method."
