See the NB AZ Deposit Products Rate Sheet for details.¹</p> <p>Interest compounds daily and will be credited to your account monthly. If you close your account before interest is credited, you will not receive accrued interest. Interest begins to accrue no later than the business day we receive credit for the deposit of checks. See your Deposit Account Agreement for more information on how interest accrues.</p> |

1. **Variable interest rate:** Your interest rate and annual percentage yield (APY) may change at our discretion at any time without notice. The APY assumes that interest paid remains in the account. A withdrawal will reduce earnings. We use the daily balance method to calculate the interest on your account. This method applies a daily periodic rate to the collected balance in your account each day. See your Deposit Account Agreement for more information on how interest is calculated using the "daily balance method."
