¹ The interest rate (rate) and annual percentage yield (APY) are variable, may change without notice, and are generally effective as of the date indicated above.

² Relationship Bonus Interest Rates are paid on eligible accounts when the account owner also has an open Premium Interest Checking account. Eligible accounts are personal savings (does not include Young Savers), money market, CD, and IRA accounts. Total Relationship Interest Rates are the aggregate of the standard product rate plus the rate increase listed for the specific product. The rate increase amount is determined by looking at the previous day's current balance in your eligible accounts, and then adding the corresponding increase amount to the standard rates listed in the standard rate table. After you have opened your account, it may take up to 10 business days before your new relationship pricing will apply. Because rates are paid based on the daily balance method, the rate earned on an account may fluctuate during a given statement period depending on the balances you keep in your account. Interest earned will be expressed on your account statement as the Annual Percentage Yield Earned (APY-E).

Personal Banking Deposit Rates

"APY" refers to the annual percentage yield, and "Rate" refers to the interest rate.

1 Your Certificate of Deposit account ("Account") will earn interest at the fixed rate in effect on the date the Account is opened. The Account is considered opened once you have accepted the Account agreements, provided an authorized signature and we have reviewed and approved your application, and made your opening deposit. Upon Account opening, we will provide you a confirmation of the Account's interest rate, which will remain in effect until the Account renews.

2 Relationship Bonus Interest Rates are paid on eligible accounts when the account owner also has an open Premium Interest Checking account. Total Relationship Interest Rates are the aggregate of the standard product rate plus the rate increase listed for the specific product. The rate increase is applied on CD accounts at account opening or when the CD renews, and will be calculated on the current balance in the eligible account at that time and does not change for the term of the CD.

Personal IRA Certificate of Deposit Rates

APY refers to the annual percentage yield, and "Rate" refers to the interest rate.
